Waldorf MWII/XT/XTk synthesizer Usersoundset 3

This PDF file gives information on the **Waldorf MWII/XT/XTk** synthesizer usersoundset 3.

The soundset is build with sounds contributed by members of the Waldorf Forum List. For information on the forum: http://www.waldorf-music.com.

The contributed **Waldorf MWII/XT/XTk** sounds are not changed in any way, except that I programmed modwheel-modulation on sounds that did not have that.

IMPORTANT
The set contains sounds, multi 's, userwavetables and userwaves and because of this, it is wise to make a backup of your existing sounds etc., because loading this soundset will overwrite every sound, multi, userwavetable and userwave!

This soundset comes with a soundset-demonstration song. The song will be available on Waldorfs ftp-server. It is called "Gabriël " and uses only Waldorf XT sounds from this soundset, except for the drums.

Also included is a midi file, made by Matthew Davidson (thank you!), which can be played with any sequencer, to explore some of the sounds in this soundset. The speed should be set to 138 bpm. The **Waldorf MWII/XT/XTk** should be set to multi 21. This is a pre-programmed multi specially for this demosong.

The people that contributed sounds (in no particular order):
Alexander Rüsberg (AR), Andreas Volz (AV), Andrew Sanchez (AS), Andrew Scheidler (AX), Ben Durbin (BPD), Boele Gerkes (SCD), Christian Hagenau (CHA), Darrell Burgan (dB), Dave Andrus (DA), Don Gothard (dg),

Fabian Logemann (vHt), Hakan Olson (HO), Hans Heerooms (H2), Holger Steinbrink aka Tsching (T), Joerg Huettner (jh), John Simmons (jes), Kevin Paisly (KP), Mark Dunn (MPD), Mark Wheawill (TSYT), Matthew Davidson (MGD), Mike Ourednik (M), Morten Winther (MW), Chris Coccia aka Mothra (cc), Paul Taylor (*), Phil Smillie (:)), Ross Bright (RB), Steffen Conrad (StC), Steven Wartowski (SAW), Till Kopper and dr. Georg Müller (T+G), Tomas Duewiger (TD) and last but not least Chris Sciurba aka Ugo (UGO)

I would like to thank Hans Heerooms for contributing those 10 fantastic multi's (be sure to play "AjaxFeyenoordH2"! And move that modwheel :-))

But most of all: thanks to every contributor again for the beautiful sounds and wavetables in this set!

Boele Gerkes
